Lucifer Matches. We lately copied a paragraph from an exchange paper which stated that a box of these matches ignited, upon being opened. A similar occurrence took place in one end of the building in which our office is kept last week. A box containing lucifer matcheshad been partly immersed in water on board the boat on which it was brought up the river. As soon as it was opened and fresh air was admitted, it began to smoke and would evidently have kindled a fire in very few seconds if let alone. May not many of the fires ascribed to incendiaries originate in the spontaneous combustion of these and other matches?

Mr. Van Buren. This gentlman has replied at great length to a number of questions addressed to him, as one of the candidates for the Presidency, by Sherwood Williams Esq. of Kentucky, and has given a pretty full exposition of his opinions on the several points on which he was interrogated. The paper is too long for publication entire in our columns, but we shall make oxtracts from it in our future

THE ELECTIONS .- In Missouri Mr. Boggs the Van Buren candidate has been elected Governor by a majority of 5 or 6 hundred over Gen. Ashley the Whig candidate. The Van Buren candidates for Congress, Messrs. Harrison and Miller are also elected. The State is considered decided for Van Buren.

In Illinois, Mr. Reynolds, now an opposition member of Congress has been cut out by a Mr. Syner. In the other districts Messrs. L. May, and Zadok Casey have been elected, all Van Buren men.

Arkansas has gone for Van Buren. Her Representatives and her two Senators will,

of course be of the same politics. Louisiana and Alabama are claimed with

great confidence by both parties. COMMON SCHOOL ASSISTANT.-We noticed this periodical when it first appeared. It is a

neatly printed and well conducted periodical, issued monthly at Albany, N. Y. at the very low price of 50 cents per annum. Every teacher and every trustee of every school in the country ought to read it. Its object is the improve- in the South, and that the boats are to be built ment of common Schools, but the teacher of any School or Accademy would derive hints from it that would much more than compen-

A couple of fellows named Smith and Bell recently made an attack upon Mr. Thomas Λ . Terry, one of the Editors of the Danville (Va.) Reporter, for his having publicly exposed the delinquencies of a contractor for carrying the mail, who was brother to one of the assailants, man killed in a duel, could maintain an action and brotherinlaw to the other. One of them knocked him down, unarmed, with a club and continued to beat him with the same instrument, while the other stood by with a cocked pistol in each hand, belching forth oaths that he would kill any man who should attempt to interfere. A number of persons however did interfere, and the savage actually did shoot at one of them, but owing to a sudden movement of his body at the instant of firing, the ball only grazed his skin. It was aimed at his heart. The fellows are in Jail.

APPEAL IN BEHALF OF THE GREAT RAIL ROAD TO THE PEOPLE OF SOUTH CAROLINA.

On the third Monday in October next, Subcriptions will be opened for the Stock of the Louisville, Cincinnati and Charleston Rail-Road. Every citizen should subscribe for one or more shares, and all who can afford it should subscribe liberally. Only Fire Dollars is to dozen. be paid on each share, at the time of subscribing, and this will be returned should the scheme fail. The Shares are One Hundred Dollars each; and after paying the first five dollars, no more will be required, unless the plan succeeds; and then only in small amounts at such long intervals, that no subscriber can be put to any inconvenience, in making his payments. Before the whole amount can be called for, a part of the Road, within the State, will be made, of which every one will feel the benefits. This Great Work will enrich the whole State. Every man will be able to get his crop to market, and to procure his supplies, cheaper and quicker than at present, and will be able to travel in two days, as far as he can now in ten. The money subscribed will be spent at home, there will be an increased demand for all kinds of labor, and we shall have markets almost at our own doors, for all our productions. Lands will increase in value-Villages will spring up in every direction, and the whole country be enriched. The proposed Union of the South with the West, will add to the wealth and prosperity of the whole country, and every part of it. It will form a Bond of Union among these States, which will give Safety to our Property, and Security to our Institutions. Let the people remember that this may be the only opportunity they may ever have to get a share in this Stock.—Every man has now a fair chance to share equally, in all the benefits of this Company. If they neglect this opportunity, it will be forever lost. Any man may give up his share, even after subscribing, if he chooses to forfeit his first payment. The risk of loss therefore, is very small, while the gain may be very great. By advancing only One Hundred Dollars, a man will secure to himself the privilege of taking Twenty Shares in the Company, which may eventually enable him to realize a clear profit at the window, and falling upon his feet on the

and support a scheme, which will make your children happy. Let no man who loves his country, fail to enroll his name on the list of the supporters of this great patriotic work. Commissioners will be appointed in each District, to receive subscriptions, but any one may at any time, go to the Clerk of the Court and put down his name for as many shares as he wishes, paying five dollars on each, and that

officer will take the proper steps, to secure him the number of shares he may subscribe for. The honor of South-Carolina, and best interests of her people required that this work should not fail. Let us, one and all, then put our shoulder to the wheel, and our success

The Wheat Crop .- The harvest in this pa of the State is over, and the apprehensions of light crop confirmed. With a few exception the best farms in the country have yielded n more than a half or two-thirds crop. A fe of the better located plots, have turned out full yield. We have heard of several parce giving from 40 to 60 bushels to the acre, and a piece of 200 acres which will average 2 bushels, but this is by no means genera The price of wheat will doubtless be high.

Spring grains generally promise well. Oat we understand are quite thrifty, while a ver potatoes. The same cannot be said of corr which is usually light. There will be no dar ger, however, of a famine; and perhaps th increase in price will compensate the farme for what there is below an ordinary crop, Rochester Democrat.

Charleston, Aug. 30. Water Spouts .- Two of these wonderfu phenoniena were seen from on board the Schr S. S. Mills, on her passage from Charleston t this place on Sunday last. They were rep resented as having represented an appear ance awfully sublime; they approached with in about a half a mile of the vessel.

The Wilmington Rail Road .- Ten miles this road are now under contract, and the Eng neers are busily engaged in locating and stakin off the balance, preparatory to offering it. Ther will be no dely in prosecuting the work. Pe sons are on the ground waiting to take contract and ready to go immediately at it.
